

Tips to Improve Your Practice Environment

WV Association of Orthopaedic Executives

April 21-22, 2023

Stonewall Resort, Roanoke, WV

Friday, April 21, 2023

Friday Fun

According to the December 24, 2021, issue of [OrthoEvidence](#), 41,692 physicians in the United States who logged golf rounds in the US Golf Association database as of August 2018 were included in an observational study assessing differences in golf habits and performance across specialties. The results of this observational study suggest that amongst golfing physicians in America, the majority of whom are men, orthopaedic surgeons are amongst the most frequent and best golfers around.

This study was limited by the self-reported golf performance, which could be subject to bias due to an overstating of their golf ability. Future research is required to understand whether golf performance is associated with superior patient outcomes and physician wellbeing.

Prove them right and be among the first 24 members, residents, practice administrators and exhibitors to [register for our golf event!](#)
